EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 1, line 3: "the frame" as been replaced by --a frame-- for antecedent purposes.

Reason for Allowance

2. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 7: The reference to US 6,409,379 to Gabathuler et al. shows a watch having a oscillating weight (1 and 2) for an automatic watch, arranged to carry a bearing (3) defining an axis of rotation and intended to be mounted on a frame of the watch, including a mass member (1 and 2) having a center of gravity shifted with respect to the axis of rotation, said member comprising two parts (1 and 2) that can be moved in relation to the other and arranged such that their relative movement causes a radial movement of the center of gravity of the mass member. Applicant's claimed invention discloses a securing device cooperating with the first and second parts, capable of occupying a first state in which said parts can be moved with reference to each other, and a second state in which said parts are rigidly secured to each other. Furthermore, the watch of Gabathuler does not have the particular securing device and there

seems to be no motivation to modify the device shown in Gabathuler to accommodate such a securing device.

Claims 2-6 and 8-12 have been found to be allowable as being dependent upon the allowable claims 1 and 7, respectively.

Conclusion

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
